

Annual Meeting 2019

ISPE Japan Affiliate

Pharma Society 5.0

Tasking Japan as an Advanced Nation

Dates: 30th & 31st May 2019

Place: Tower Hall Funabori (Edogawa-ku, Tokyo)

Host: ISPE Japan Affiliate

The Cabinet Office of the Government of Japan is promoting Society 5.0, defined as "a human-centered society that balances economic advancement with the resolution of social problems by a system that highly integrates cyberspace and physical space using IoT (internet of things), big data and Artificial Intelligence (AI)."

The ISPE Japan Affiliate is promoting Pharma Society 5.0, where our aim is to balance advancement of the pharmaceutical industry and overcoming the challenges to human health by adopting highly integrated innovative technologies, as the pharmaceutical perspective of Society 5.0.

It is increasingly important to proactively introduce the latest innovative technologies in order to more safely and economically, as well as effectively, manufacture pharmaceutical products to contribute not only to patients and medical professionals but also a sustainable society, while taking the environment into consideration.

Moreover, our expectation is that combinations of innovative technologies will create new values, improve the quality of life and generate business opportunities.

The theme of the ISPE Japan Affiliate 2019 Annual Meeting is Pharma Society 5.0. Speakers are invited from governmental/regulatory authorities, industry and academe of Japan, USA and Europe to speak about the future for human health.

Together with our Annual Meeting participants, we will consider the future development of the pharmaceutical industry and how to get involved. Our since wish is for the Annual Meeting to contribute to the promotion of innovation. We look forward to receiving you in Japan.

Hirofumi Suzuki
Chairman of the Board
ISPE Japan Affiliate

Hiroshi Sakai
Chairperson, Organizing Committee
