

Annual Meeting 2023

ISPE Japan Affiliate

**Achieving wellbeing
- The road to slow digital**

Date: 18th & 19th May 2023

Place: Tower Hall Funabori (Edogawa-ku, Tokyo)

Host: ISPE Japan Affiliate

On May 18th and 19th, the 2023 ISPE Japan Affiliate Annual Meeting will be held at Tower Hall Funabori, Edogawa Ward, Tokyo.

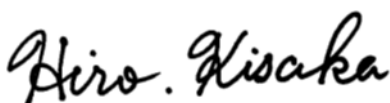

With your support, the ISPE Japan Affiliate now has over 800 members and more than 270 companies as group members. We would like to express our sincere gratitude.

At the 2023 Annual Conference, the theme will be "Achieving wellbeing". On the first day, experts from industry, government, and academia from Japan and overseas will give presentations on the current situation in Japan and the expected near future. On the second day, our COPs will hold workshops with more detailed discussions.

Our sub-theme is "the road to slow digital", that is, in the midst of digitalization, using digital technology to actively secure our free time. In addition, we consider it necessary to grasp the essence of wellbeing and carefully introduce digitalization. With this in mind, "slow food" was referred to as "slow digital".

Together with our participants, we hope to exchange thoughts on challenges, initiatives, and prospects for change in the healthcare industry, and the future of the pharmaceutical industry. In doing so, our aim is to drive further innovation in Japan.

Our event will begin with members of the ISPE Japan Affiliate making important decision-making at the General Assembly, including election of directors, presentation of activity reports and accounting reports, as well as future planning and budgetary proposals. We appreciate your participation.

Hirokazu Kisaka
Chairman of the Board
ISPE Japan Affiliate

Akihiro Matsuki
Chairman, Organizing Committee
